## Work experience

### 2025 - Videographer and Editor

Private Contract

I produced the highlight video for the 2024-2025 *Behaviour Interactive Research Chair in Game Design*, which expanded to include serving as the videographer (but not editor) for LUDODROME 2025, an experimental game exhibition.

### 2023 – Place des Arts

Parking Attendant

During my time there, I designed and 3D-printed custom click-counter holders which simplified the team's work and remained in use after my departure.

## Education

### Present - BFA Specialization in Computation Arts

Recipient of the *Behaviour Interactive Research Chair in Game Design* undergraduate scholarships (2024-2025).

### 2023 - DEC, Computer Science & Mathematics

My thesis project saw the co-development of a game called “*Défense Planétaire*”.

## Certificates

- **First Aid / CPR certification.**
- **Innovation & Entrepreneurship**  
(FutureBound, Concordia)
- **Leadership & Collaboration**  
(FutureBound, Concordia)
- **Communication & Digital Capabilities**  
(FutureBound, Concordia)

## Skills

### Languages

English  
Français - French  
Español - Spanish

### Programming Languages

Java  
C#  
C++, Arduino  
Python, CircuitPython  
JavaScript, PHP, HTML & CSS

### Software

**Windows OS proficiency**

**Microsoft Office**

Word, Excel, PowerPoint, Outlook,  
OneNote, etc.

**Adobe Creative Cloud**

(Premiere Pro, Photoshop, Lightroom,  
Illustrator, Audition, InDesign)

## Areas of Expertise

### Programming

Object-Oriented Programming (OOP), agile methodology, web development, databases (MongoDB), multiplayer & networked systems, Game engines, Unity, Unreal Engine, Blueprints.

### 3D Digital Production

3D modeling, animation, rendering and 3D printing (Blender, Tinkercad).

### Video Production and Photography

Photography, filming, and video/audio editing using personal camera, microphone, drone, and production equipment; creation of polished content for web or physical media.
